

Checking In / Boarding Passes

Please arrive one hour and thirty minutes prior to your scheduled flight to ensure that all flight arrangements and security measures can be completed. Ticket counter and flight closes 45 minutes prior to departure.

Because airline personnel must process paperwork, load bags (and sometimes de-ice airplanes) the airline check-in counter is closed 45 minutes prior to departure and cannot be reopened until after the flight departs.

If you booked your ticket on American Eagle/American Airlines you have several alternatives to traditional check-in.

Select the one that suits you.

Flight Check-In on AA.com - Flight Check-In can be found on the AA.com home page, or under the 'Reservation' tab. Flight Check-In is available if your flight is less than 24 hours but more than one hour from departure. Login to AA.com or enter the passenger name and record locator, print your pass and you're ready to go. Round Trip Flight Check-In is also available. Check in and print your boarding passes for both your outbound and return flights at the same time (as long as your return flight is within 24 hours of initial check-in). For more information on Flight Check-In on AA.com, visit www.aa.com/checkin.
